

GSFC
UNIVERSITY
EDUCATION RE-ENVISIONED

GUITAR
COUNCIL

Co-Working Space at
GUITAR Council

About GSFC University

GSFC University, established under the Gujarat Private University (Second Amendment) Act, 2014 by the GSFC Education Society—an initiative of Gujarat State Fertilizers and Chemicals Ltd. (GSFC)—is a unique example of an **industry-driven university built on a CSR model**.

As an **industry-aligned education provider**, the University focuses on developing **industry-ready and future-ready skills** among students. With strong and long-standing relationships with industries, GSFC University integrates academic learning with practical exposure, ensuring that students are well-prepared to meet evolving industry demands.

The University stands as a **model of industry-academia interface**, promoting innovation, research, and experiential learning through active collaboration with industry partners.

About GUIITAR Council

The GU Incubation Innovation Technology and Applied Research (GUIITAR) Council is the innovation and incubation hub of GSFC University. It supports start-ups, innovators, researchers, and students through mentoring, infrastructure, technical expertise, and strong industry connections.

GUIITAR Council acts as a **bridge between academia and industry**, transforming ideas into scalable ventures while creating a **living laboratory for student learning, innovation, and entrepreneurship**.

Co-Working Space: A Hub for Innovation & Learning

The Co-Working Space at GUIITAR Council offers a vibrant and collaborative workspace for start-ups, innovators, freelancers, and organizations.

More than just a workspace, it serves as an **integrated learning ecosystem for GSFC University students**, where classroom knowledge meets real-world application. Continuous interaction with start-ups and industry professionals enables students to gain insights into innovation processes, business dynamics, and emerging technologies.

This initiative promotes:

- Experiential and project-based learning
- Industry-academia collaboration
- Entrepreneurial thinking and innovation
- Development of industry-ready and future-ready skills

Why Choose GUITAR Co-Working Space?

- ✓ Affordable, professional workspace within a university innovation ecosystem
- ✓ Direct engagement with students trained in industry-relevant skills
- ✓ Access to research facilities and prototyping labs
- ✓ Opportunities for internships, live projects, and talent acquisition
- ✓ Participation in university innovation programs and startup events
- ✓ Networking with start-ups, mentors, investors, and industry leaders
- ✓ Association with a strong industry-linked academic institution

- Networking Events & Industry Interaction

Note: Some facilities are subject to prior booking and availability.

A Win-Win-Win Model: University – Industry – Students

The GUITAR Co-Working Space is designed as a **mutually beneficial ecosystem**, ensuring value creation for all stakeholders:

For GSFC University

- Strengthens its role as an industry-aligned education provider
- Enhances experiential and outcome-based learning
- Promotes research, innovation, and startup culture
- Improves student employability and placement outcomes
- Expands strong industry partnerships

For Companies / Start-ups / Organizations

- Access to industry-ready and future-ready student talent
- Collaboration with faculty experts and research facilities
- Cost-effective workspace within an innovation-driven ecosystem
- Opportunities for R&D, innovation, and product development
- Visibility and engagement through university platforms

For Students of GSFC University

- Exposure to real-world industry and startup environments
- Opportunities for internships, live projects, and skill development
- Direct mentorship from entrepreneurs and industry experts
- Development of entrepreneurial mindset and innovation skills
- Enhanced career readiness aligned with industry expectations

This model ensures that the co-working space functions not just as a facility, but as a **collaborative platform for growth, learning, and innovation**.

Student Learning & Engagement Opportunities

Organizations operating from the co-working space actively contribute to student development through:

- Internships and hands-on training
- Live industry projects and problem statements
- Technical and business mentorship
- Guest lectures, workshops, and expert sessions
- Collaboration in research, innovation, and product development
- This creates a dynamic learning environment, strengthening students' practical skills, innovation mindset, and career readiness.

Eligibility

Start-ups may apply if they meet at least one of the following:

- Supported under SSIP, Startup Gujarat, or GUITAR Council
- Backed by government or recognized incubation programs
- At Prototype / MVP / Early-revenue stage
- DPIIT-recognized start-ups
- Typically up to 10 seats per start-up

Duration of Usage

- Minimum Lock-in Period: **6 Months**
- Maximum Duration: **2 Years**
- All allocations are reviewed periodically based on progress, engagement, and utilization.

Fees Structure

Category-1 GSFC University Alumni Start-ups ₹ 1000 per seat / month	Category-2 External Start-ups ₹ 2500 per seat / month	Category-3 Corporate / Industry Case-to-case basis
--	--	---

Allocation is merit-based and subject to availability. Priority is given to start-ups incubated at GUITAR Council.
