Learning Outcomes for Team: To organize such an event, several skills need to be on display to be able to conduct a successful event. We:

1. Learnt to take a risk of having prizes worth Rs.30,000/- in the very first one of a kind competition that has no previous track record to follow.
2. Learnt to maintain quality of execution in any of the decision making bodies for the competition to be able to put forward the best result.
3. Developed technical knowledge to be able to understand the requirements of various aspects of cloud, VPS, hosting, scripting languages to name a few to have a smooth user-experience upon the deployment of the project.
4. Learnt to pitch our idea to various people in the industry to have a covenant in place for the betterment of the competition as they would add to the vision we have and also aid us financially.
5. Developed Event Management Skills so that we can go through a process wherein we think from a participant's perspective and how things can be done easier for them, etc.

Learning Outcomes for Participants: Participants have clarity in a subject like the stock market, where most people misquote it as gambling. They have learned to correlate situations according to the on-going trends by analyzing it and executing it to gain maximum profit. For eg. If the lockdown is imposed, then

according to the trend, they can use this period to develop a new skill set or work on themselves to overcome their limitations. Also, participants have learned how to let go of potential liability and to hold on with a potential asset to gain maximum profit. Decision-Making Skills, Time Management skills, Arithmetic, and Statistical skills are added on the learning.

Memorable information: We have observed a participation of 100+ students/professionals for the first time for a paid event since we started organizing events. Also most of the participants felt it like a stress buster in a pandemic period as such a competition was different and exciting.

Experience is soo amazing,nd also like to participate in such extraordinary events. Just i like to add 1 thing about website tht it's difficult to buy nd sell immediately coz to go frm holdings to market thn after buy frm market to transition thn to holdings nd also price of stocks is varying in seconds so.

Everything was perfect , I liked the concept of lucky stock very much. And the whole website managed so we'll , also it was user friendly. And the support staff were really too good. One thing I just want to say "during the closed market, it would be better if you would at least let us see our holding so that we can plan something which can be helpful for us." Overall amazing , I loved it. Looking forward for such type of competitions. Will be glad to be part of it. Best of luck
