Organization: iCEM - International Centre for Excellence in Mining

Total Experience: 28+ Years

Location: Ahmedabad

Education:

1. **MBA – Strategy**
GISMA, The Hannover Campus, Purdue University
2. **MBA – Operations Research and Marketing**
3. **Bachelor of Arts**

Brief:

Anupam Jalote is revolutionizing the Indian electric vehicle (EV) industry by reimagining EVs as more than just mechanical devices, aiming to make India a global leader in small electric vehicles. He introduced an open-source interoperability standard, significantly aiding an Indian company to manufacture an innovative, rare-earth-element-free motor through an international collaboration.

Anupam Jalote also founded EVangelise, India's largest EV innovation challenge, to support startups focusing on various EV technologies. His efforts extend to reducing reliance on imported components, advocating for the use of generic parts and local power electronics to control the supply chain better. With over fifteen years in renewables and cleantech, Jalote is a key figure in fostering innovation, commercialization, and scaling in the sector. His leadership roles in various scientific and technological boards underline his commitment to driving technological and scientific progress.

Experiences:

1. Chief Executive Officer, iCEM - International Centre for Excellence in Mining : Apr 2023 - Present
2. Strategic Advisor, Innovation Strategist , Climate Risk Mitigation , Electric Vehicles : self employed
3. CEO, iCreate - International Centre for Entrepreneurship and Technology: Jun 2016 - Oct 2022
4. Director - CEO , GreenOil Energy Sciences (Pvt) Ltd : Jun 2008 - May 2016
