Event Report

1. **Name of Event:** Exposure and field visit for problem identification

2. **Nature of the Event:** Visit

3. **Date:** 1st October, 2021

4. **Time:** 12:00 to 3:00 P.M.

5. **Venue:** VMC Command and Control Centre, Vadodara

6. **Number of Participants:** 58

7. **Learning:**

Computer Science and Engineering 58 students have visited Vadodara Municipal Corporation (VMC) Command and Control centre under Azadi ka Amrit Mahotsav initiative of VMC. The students got an opportunity to gather plenty of knowledge about various on-going projects of VMC like Smart Surveillance, GIS Based Gas Pipeline Monitoring System, Integrated Transit Management System, Public Address System, Supervisory Control and Data Acquisition (SCADA), Door to Door Garbage Collection with GPS System and many more.

These learning's empowered Students about the knowledge of real time applications development using IoT , Computer Vision, AI and Machine learning.

We are very thankful to VMC for inviting our students for this wonderful informative session and look forward for such insightful sessions in future.
