

Event Report

- 1. Name of Event:** Vigyan 2.0 Hackathon 2022
- 2. Nature of the Event:** Hackathon
- 3. Date:** 29th to 31st March, 2022
- 4. Time:** 09:00 A.M. onwards on 29th March to 07:00 P.M. on 31st March, 2022
- 5. Venue:** 2nd Floor, GUITAR Council, Anvikhsa, GSFC University, Vadodara and <https://meet.google.com/yxr-cqtq-xcy>
- 6. Organized by:** Startup Gujarat, GSFC University, GUITAR Council, SSIP, and IIC (MoE Gol)
- 7. Supported by:** Startup Gujarat Cell, Industries Commissionerate, Govt. of Gujarat
- 8. Role of State Government:** Industries Commissionerate, GoG
 - A. 75% funding support for organizing Hackathon 2022
 - B. Promotion of Hackathon 2022
 - C. Guidance and Support to organize Hackathon 2022
 - D. Gujarat State Biotechnology Mission(GSBTM), GoG, Gandhinagar provided problem statement for the Hackathon 2022
- 9. Number of Participants:** 110 Participants, Annexure – 1
- 10. Event Statistic:**
 - A. Total Teams: 26
 - B. Total Participants: 110
 - C. GSFC University Teams: 23 Team
 - D. Outside Teams: 3 (1 Team from Ganpat University, 1 Team from Parul University and 1 Team from GTU)
 - E. Total Female: 28
 - F. Total Male: 82
 - G. Team Size: Min. 1, Max. 7 and Average 4.23
 - H. Total Team Mentors: 15

11. Jury Members:

A. Internal Jury Member: 1st Round of Mentoring and Evaluation

Sr. No.	Name	Designation	Institute/ Industry	Mobile No.	e-mail
1	Ms. Shweta Rajput	Assistant Professor	GSFC University	9879209842	shweta.rajput@gsfconiversity.ac.in
2	Dr. Viraj Bhanvadia	Assistant Professor	GSFC University	9998007576	viraj.bhanvadia@gsfconiversity.ac.in
3	Dr. Trupti Gajaria	Assistant Professor	GSFC University	9898802434	trupti.gajaria@gsfconiversity.ac.in

B. External Jury Members: 2nd Round of Evaluation and Power Round

Sr. No.	Name	Designation	Institute/Industry	Mobile No.	e-mail
1	Mr. Pradip Patel	CEO	Prime UAV	9722063653	info@primeuav.com
2	Mr. Rudresh Vyas	Head Education	Engg. Technique	9376211272	rvyas@enggtechnique.com
3	Mr. Prakash Vaghasiya	CEO	Vise Innovative Solution Enterprise Pvt. Ltd.	9601365935	visedirector@gmail.com

12. Judging Criteria: As per Annexure -2

13. Event Schedule:

Date	Time Hrs.	Activity	Location
Day 1 29/03/22	09:00 – 10:00	Inauguration	https://meet.google.com/yxr-cqtq-xcy
	10:00 - 13.00	Hackathon work begins	https://meet.google.com/yxr-cqtq-xcy
	12:00 - 13:00	Lunch Break	Canteen
	13:00 - 15:00	Hackathon work continue	https://meet.google.com/yxr-cqtq-xcy
	15:00 - 17.00	First Round of Training/Mentoring session	https://meet.google.com/yxr-cqtq-xcy
	17:00 onwards	Hackathon work continue	https://meet.google.com/yxr-cqtq-xcy
Day-2 30/03/22	09:00 to 9:30	Breakfast	2 nd Floor, Anviksha
	09:30 to 10:30	Hackathon work continue	GUITAR Council, 2 nd Floor, Anviksha, GSFCU
	11:30 - 13:00	Second Round of Evaluation	GUITAR Council, 2 nd Floor, Anviksha, GSFCU
	13:00 - 14:00	Lunch Break	Hostel Mess, Ground Floor
	14:00 to 15:00	Hackathon work continue	GUITAR Council, 2 nd Floor,

			Anviksha, GSFCU
	15:00 - 16:30	Power Judging	GUITAR Council, 2 nd Floor, Anviksha, GSFCU
	16:30	High - Tea	GUITAR Council, 2 nd Floor, Anviksha, GSFCU
	16:30 onwards	Hackathon work continue	Idea Submission
Day -3 31/03/22	15:00 to 17:00	Visit by Shri. P. K. Taneja, IAS (Retd.), President, GSFCU	GUITAR Council, 2 nd Floor, Anviksha, GSFCU
	17:00	Result Declaration	Auditorium, SoT, GSFCU

14. Themes and Problem Statements:

- A. Biotech
- B. Cleantech & Greentech
- C. Drone
- D. Smart Automation
- E. Frugal innovation
- F. Themes based on Smart India Hackathon 2022
- G. Any Novel idea that can solve problems of society, industry & institute at large

Sr. No.	Biotech
1	Natural or Biological or Green synthesis of Azadirachtin
2	Waste Water Management

Sr. No.	Cleantech & Greentech
1	Oil removal from wastewater
2	Dye removal from wastewater
3	Hydrophobic coating spray based on nano polymer.
4	Nanopolymer based water soluble thin film with different carriers.
5	Design optimization of wind blade for 1KW vertical axis wind turbine
6	Design optimization of PMSM generator or maglev generator for 1KW vertical axis wind turbine
7	Development of PCB recycling machine for small scale use
8	Development of solar panel recycling machine for small scale use.
9	Waste generation mapping by software
10	Water harvesting for Society
11	Green Waste use for Society

Sr. No.	Drone
1	Increasing the flight time of agricultural drone
2	Design and develop a seed spreading mechanism for drone
3	Design and develop a winch mechanism for drone
4	Regeneration on the fly
5	Rotor design

Sr. No.	Smart Automation
	Problem Statements for University/ College Students
1	Synthesis of Tungsten Carbide at low temperature

Sr. No.	Frugal innovation
	Problem Statements for University/ College Students
1	STEAM based Educational Gadget (preferred 3D printable)

15. Problem Statements Received from:

- A. Gujarat State Biotechnology Mission, GoG, Gandhinagar
- B. Vise Innovative Solution Enterprise Pvt. Ltd., Vadodara
- C. R B Engineering, Rajkot
- D. Engineering Technique, Vadodara
- E. Prime UAV, Mehsana
- F. Technoride Solution Pvt. Ltd., Vadodara
- G. Smart India Hackathon 2022: <https://www.sih.gov.in/sih2022PS>

16. Event Details:

GUITAR Council, GSFC University, Startup Gujarat Cell – Industries Commissionerate, Students Startup Innovation Policy (SSIP) and Institution's Innovation Council (MoE) organized a **Vigyan 2.0 Hackathon 2022** from 29th to 31st March, 2022 Online and Offline Mode.

The Inaugural Ceremony of Vigyan 2.0 Hackathon 2022 was hosted by Mr. Kirankumar Parmar, Sr. Manager, GUITAR Council on 29th March, 2022 through the online platform GOOGLE Meet. The ceremony started with a warm welcome to the GSFC University Management, Internal Jury Members, Faculty Mentor, CEO – GUITAR Council and Participants. Dr. Saroj Shekhawat, CEO, GUITAR Council

welcome all the participants and wished for the success of the event. She congratulated the organizing team for such a value-adding event under the Vigyan 2.0.

Mr. Kirankumar Parmar briefed the three days of Hackathon 2022 schedule, rules & regulations, Judging criteria, Location and Prize to the participants. After successful completion of the inauguration ceremony, all the participated teams were asked to begin their Hackathon work.

On the first day 29th March, 2022 of Hackathon 2022, a total of 26 teams and 110 participants were invited for the first round of Mentoring and Evaluation. Internal Jury Members Ms. Shweta Rajput, Dr. Viraj Bhanvadia and Dr. Trupti Gajaria mentored and evaluated all the team of Hackathon 2022. They are evaluated based on the solution approach to the problem, ambitiousness/complexity/impact factor, technology and innovations attributes, execution attributes and showcase/user experience attributes. All the teams had kindly expressed their progress and their expected outcome to the Internal Jury Members. The expert highlighted certain pros and cons of each respective project and asked them to improvise further and come up with a perfect end-product.

On the second day 30th March, 2022 of Hackathon 2022, a total of 26 teams and 110 participants were invited to the 2nd Floor, GUITAR Council, Anviksha, GSFC University. Student volunteers welcomed external jury members Mr. Pradip Patel, Mr. Rudresh Vyas and Mr. Prakash Vaghasiya with a flower bouquet and introduced them to the participants.

All the 26 teams were allocated seating space in seven GUITAR Council labs. Each team has given a number for identification and evaluation purpose. External Jury members visited all the 26 teams' participants and the second round of evaluation was completed. After an efficient interaction, teams got encouraged to modify their project and had the desired outcome. They have again evaluated all the teams in the final power round and submitted marks for the result declaration. Few teams had amazing execution which impressed Jury Members due to which they got an opportunity to work under the guidance of the team for further development.

Dr. Nikhil Zaveri, Provost, GSFC University visited and interacted with all the teams on 30th March, 2022. He congratulates all the participants for participating in Vigyan 2.0 Hackathon 2022 to demonstrate their ideas/projects for validation and to provide a solution to the Industry/Institute.

Shri P. K Taneja, President, GSFC University, Dr. Nikhil Zaveri, Provost, GSFC University, Dean, Associate Dean, Sr. Management of GSFC University, Faculty Members, Vigyan 2.0 Team and GUITAR Council Team visited and mentored more than 20 teams on 31st March, 2022. President, GSFC University has interacted with participants and motivated them to research more on the ideas of Product/Service/Process development. He has also instructed Sr. Manager, GUITAR Council to provide all the necessary support to the students for their start-ups.

Shri P. K Taneja, President, GSFC University has distributed Cash Prize from GSFC University and Winner Trophies to the 1st, 2nd and 3rd Winners of Vigyan 2.0 Hackathon 2022 on 31st March, 2022.

Mr. Kirankumar Parmar, Sr. Manager, GUITAR Council expressed the vote of thanks to the participants for attending the Vigyan 2.0 Hackathon 2022, Shri P.K. Taneja, President, GSFC University, Dr. Nikhil Zaveri, Provost, GSFC University, Shri Mahesh Barot, Asst. Director (Admn.), Senior Officer of GSFC University, Dean, Associate Dean, Faculty Members, Vigyan 2.0 Team and GUITAR Council Team for their guidance and support.

Mr. Kirankumar Parmar, Sr. Manager, GUITAR Council also expressed the vote of thanks to the Core Committee members of Vigyan 2.0 Dr. Rajni Pania, Assistant Prof. - Chemistry & Co-Ordinator, Dr. Saroj Shekhawat, Assistant Prof. – Biotechnology, Dr. Ankit Sudhir, Assistant Prof. – Biotechnology, Dr. Mriganka Das, Assistant Prof. – Chemistry for their support to organize the event successfully.

17. Learning outcomes of the event:

- A. The event helped each team to give exposure to their ideas so that they can come to know about the drawbacks of their ideas and can overcome that before the final PoC/Prototype development.
- B. All the participating teams have been offered to provide startup related support and mentorship under GUITAR Council.
- C. Industry experts also gave their valuable suggestions for the betterment of each project and guided them on how they can improve their product so that it is ready to face the competition in the market. Experts are also interested to mentor some of the ideas personally.
- D. President, GSFC University has interacted with more than 18 teams and motivated them to convert their idea into a product. Annexure -4
- E. Vigyan 2.0 Hackathon 2022 provided participants the opportunity to showcase their innovative ideas & projects and improve further for Product development.

18. How will it be useful for Students/School/University:

- The participating teams will be encouraged and supported in further development of their PoC/Prototype and identify commercial applications of their ideas.
- The event helps students to validate their idea for continuous improvement.
- It helps students to solve interesting technical/business problems and take on real-world challenges.

19. Winners and Participants Certificates:

20. Winners Details: Annexure -3

Winner Rank	Marks out of 130	Team ID	Theme	Problem Statement	Name	Cash Prize given by GSFC University
1	88.67	16	Food	Idea is focusing to Tackle Food Loss in India and to feed Poor People	Mansi Chaudhari Neha Chaudhari	15,000/-
2	88	10	Smart Automation	Automation System for Hydroponics	Dhairya Sharma Veera Patel Tirth Jadvani Shrey Ghadge	10,000/-
3	83.33	7	Defence	Multi Utility Tactical Unmanned Ground Vehicle (Robot Solders)	Atriya Biswas Dhairya Sharma Chitrarth Desai Aman Jaiswal Shrey Ghadge	7,500/-

Guidelines for scoring in Hackathon 2022

First and Second Round Judging Sheet

1. Solution Approach to the Problem	Marks
The solution does not address the requirements for the given Industry's problem. The solution only solves a generic technical / IT problem	1 to 3
The solution partly addresses the given Industry's problem. The chosen approach is basic with many known available solutions.	4 to 6
The solution provides a unique approach to the Industry's problem, but it may not be extendable into a platform for larger impact. The team has focused entirely on solving the specified problem in hand.	7,8
The solution completely drives new business model/social engagement using software/technology driven methodology for the specific domain (e.g. what Uber/Paytm did in their domain). The solution has the capability to extend into a platform for larger Impact. The team has thought through the problem to the end and considered all aspects pertaining to the solution.	9,10
2. Ambitiousness/Complexity/Impact Factor	Marks
Simple problem statement requiring very little technical input.	1 to 3
Medium Ambitious problem requires a reasonable effort. For the Industry, the problem is real and they welcome the solution, but it is not an immediate/top priority to address.	4 to 6
Fairly Complex problem – requires significant effort. Team has demonstrated their Ambitiousness by selecting to work on the problem. The team has implemented a small subset of the problem and hence its impact to the Industry is minimal. Significant additional effort is needed to implement the solution for the Industry.	7,8
Fairly Complex problem and team has implemented a significant subset of the problem. Problem is very important to the Industry and the Industry can Implement the Solution with minimal additional efforts.	9,10
3. Technology and Innovations Attributes	Marks
Not an innovative solution.	1 to 3

Solution is innovative and uses latest concepts.	4 to 6
Solution has been innovatively designed using latest technologies e.g. India-stack, block-chain, machine learning, data insights, human machine interface etc.	7,8
Solution is well thought out and is something extremely unique. It has very innovative approach - effective use of multiple latest technologies.	9,10
4. Execution Attributes	Marks
No working demo	1 to 3
Partial working demo to be able to showcase solution to the problem. Integration of code/development was there but not end to end. Demoed multiple parts separately.	4 to 6
Usable and working demo however it was small and felt some development missing. Some of NFRs (Security, Performance) are also considered while implementation	7,8
Completely working prototype of demo which can be repetitively executed. Most of NFRs (Security, Performance) considered while implementation.	9,10
5. Showcase / User Experience Attributes	Marks
Not Useful & Confusing operation / access and will not motivate personas / users.	1 to 3
Partly Useful.	4 to 6
Useful - Easy and efficient for users Desirable - Positive first impression, will motivate personas / users	7,8
Extremely Useful - Super easy to operate/access, efficient for users Extremely Desirable - Very positive first impression, will certainly motivate personas / users	9,10

Power Judging Sheet

1. Presentation / Elevator Pitch	Marks
Presentation was quite basic and did not address the Problem statement or the Solution highlights.	1 to 3
Mediocre Presentation, addressed the Problem, Solution not clearly articulated.	4 to 6

The Thoughts were random, not systematically presented	
Good Presentation, addressed the problem & Solution. Thoughts were in line, however, missed out some key aspects of the solution.	7, 8
Very good presentation, focused on the problem and the Solution. Well articulated thoughts, bringing out the salient features of what is implemented and the bigger picture to take the solution ahead.	9, 10
2. Significance/Impact for the Industry: To take the solution ahead.	Marks
Simple problem statement requiring very little technical input (eg building an App with very little server side components OR building a simple Web page/Website).	1 to 3
For the Industry, the problem is real and they welcome the solution, but it is not an immediate/top priority to address.	4 to 6
The team has implemented a small subset of the problem and hence its impact to the Industry is minimal. Significant additional effort is needed to implement the solution for the Industry.	7, 8
Team has implemented a significant subset of the problem. Problem is very important to the Industry and the Industry can Implement the Solution with minimal additional efforts.	9, 10
3. Demonstrable Showcase	Marks
No working demo Few screens but not integrated	1 to 3
Partial working demo to be able to showcase solution to the problem. Integration of code/development was there but not end to end. Demoed multiple parts separately.	4 to 6
Usable and working demo however it was small and felt some development missing. Some of NFRs (Security, Performance) are also considered while implementation	7, 8
Completely working prototype of demo which can be repetitively executed (significant amount of coding or development might have gone in place). Most of NFRs (Security, Performance) considered while implementation	9, 10

Annexure -3
Vigyan 2.0 Hackathon 2022 Result

Team Name	First Round Mean of Total Out of 50	Second Round Mean of Total Out of 50	Power Round Mean of Total Out of 30	Grand Total Out of 130
16	21.00	41.67	26.00	88.67
10	19.00	43.33	25.67	88.00
7	14.00	42.67	26.67	83.33
28	17.00	38.00	23.00	78.00
5	7.00	41.67	26.33	75.00
6	17.00	37.67	20.00	74.67
1	6.00	39.33	25.00	70.33
27	10.67	35.33	20.67	66.67
22	11.00	33.00	19.67	63.67
25	7.33	31.67	17.00	56.00
14	9.00	27.00	18.33	54.33
26	7.67	27.00	19.33	54.00
24	6.33	29.67	17.67	53.67
17	17.00	22.33	13.33	52.67
4	7.00	27.00	17.33	51.33
21	11.00	24.33	15.00	50.33
9	15.00	20.67	13.33	49.00
13	10.00	24.00	14.33	48.33
23	7.00	24.00	16.33	47.33
18	12.00	21.67	12.67	46.33
15	8.00	21.67	14.33	44.00
29	13.00	18.33	12.33	43.67
19	9.00	19.00	12.00	40.00
3	12.00	17.67	9.33	39.00
2	7.00	14.33	8.67	30.00
12	7.33	13.33	7.33	28.00

Annexure -4

Sr. No.	Theme	Problem Statement	Name	A Suggestion given by Shri. P.K. Taneja, IAS (Retd.), President, GSFCU
1	Drone	Design to solve problem of aerodynamic stability and efficiency of Drone	Shubham Solanki	President, GSFCU suggested organizing meetings with farmers directly and visiting them at their farms/villages to understand the need and usage of Drone in Spraying fertilizer/pesticides and surveys on Farms. President, GSFCU Also suggested connecting with Industry experts for Drone Development.
			Kush Soni	
			Devarsya Shah	
			Mansi Patel	
			Mahek Chawda	
			Prajeskumar Patel	
			Rahi Patel	
2	Heritage & Culture	Student innovation - Culture and Heritage	Het Pastagia	President, GSFCU suggested to connect with CEPT University for their project development and guidance. He also suggested studying their technology for Prototype Development. Students were asked to identify an expert in Culture and Heritage sector to guide them more professionally.
			Nayan Radadiya	
			Virajkumar V. Patel	
			Parth Thakkar	
			Anshita Srivastava	
			Khyati Shah	
3	Smart Automation	Fire training and mock drills through VR Technology	Tej Dhruve	VR Module design was highly appreciated by the President. President wanted the students to design more modules with basic training. He gave an example of how a person alone at home would handle fire by explaining three steps. He wanted the students to visit GIDM and discuss the possibility of making
			Dhruv Desai	
			Amol Jadhav	
			Jahnvi Bundheliya	
			Prapti Patel	

				advanced modules.He also commented on the price of VR Head Set being restrictive and asks them to explore cheaper options without comprising quality so that it can reach a wider audience.
4	Healthcare	Build Monthly Pill Distributer	Dutt Parekh	President, GSFCU liked the idea and congratulate the student. He asks him to build a prototype as it would be extremely relevant to senior citizens and also increase team members to speed up the process.
5	Defence	Robot Solders	Atriya Biswas	President, GSFCU appreciated the idea and discussed in detail about the various integrated systems which will make it one complete unified platform and since it was still into designing phase he ask the students to start the work on Prototype Development.
			Dhairya Sharma	
			Chitrarth Desai	
			Aman Jaiswal	
			Shrey Ghadge	
6	Blockchain & Cybersecurity	Build a solution that is able to undertake Optical Character Recognition (OCR) on handwritten text in Hindi language. The result should be the equivalent text typed in Hindi with over ~70% accuracy. Solutions must address issues such as non-standard	Kshipra Jadav	President, GSFCU liked the idea of students and suggested to study Jio Phone translate features and technology for Prototype Development.
			Ashish Kumar Patel	
			Rishita Patel	
			Prem Shilu	
			Dhruv Patel	
			Devanshi Patel	

		ways of writing and poor handwriting.		
7	Smart Automation	Low cost Hydroponic System	Dhairya Sharma	President, GSFCU was extremely happy with the setup and concept clarity of the team and he appreciated the entire design flow of the system. He commented that similar work was taken up by Gujarat Institute of Desert Ecology (GUIDE), BHUJ and remarked that student's project looks more advanced and has great potential. He asked the students to share the presentation of Idea and Prototype with him so he can discuss it with people working in a similar field. He also mentioned Mr. Fabian Schwartzman, Aero farm Advanced technology in the same field and asked students to study the updated concept and design. He also mentioned to study Ahmedabad based Startup Rise Hydroponic which is working on Hydroponic Farming setup. Students informed that they have already studied Rise Hydroponic for the same.
			Veera Patel	
			Tirth Jadvani	
			Shrey Ghadge	
8	Greentech	Developing solution for Water Pollution	Samarth Desai	Students updated the President sir that they are mid-way of development of Prototype and would require further funding. President, GSFCU asks them to follow the procedure for the fund
			Khushali Desai	
			Soham Dholakia	
			Jay Patel	

				approval and it will be expedited so that they can finish the prototype.
9	Biotech	Biodegradable Plastic Development	Ayush Nasit	Students updated the President sir that petroleum-based plastic is very harmful to the environment as well as costly. President, GSFCU asked them how confident they are to develop Biodegradable Plastic. Students replied that they are very confident to develop biodegradable plastic
			Parth rola	
			Ruchit patel	
			Zalak Patel	
10	Food	Idea is focusing to Tackle Food Loss in India and to feed Poor People	Mansi Chaudhari	President, GSFCU liked the idea of food products developed from wheat and advised to study the same on other grains. He also suggested that students make attractive logo and packaging for Food Products. Students informed President that they are waiting for a testing report of their project and soon will develop an attractive logo and packaging. President suggested selling the product in GSFC University canteen after the satisfactory testing report.
			Neha Chaudhari	
11	Travel and Tourism	To develop Mobile software for guiding the tourist (CharDham Yatra & other places) in Uttarakhand state.	Renish Narola	President, GSFCU asks students about the facility available through the mobile application and specific Chat Bot Development. He suggested to connect with GIDM for an early warning system feature.
			Nishant Viroja	
			Varada Deshpande	
			Jenil Patel	
			Dhwani Sukhadia	

			Hasti Chopada	
12	Agriculture	Reduce organic fertilizer uses	Kavita mistri	This project was initiated on the suggestion on Dr. Pujan Vaishnav whereby he shared that the organic fertilizer developed by students using bagasse will be used as a free promotional sample by GSFC Ltd along with it Product,. GSFC Ltd. will also help in Packaging and displayed it on their counter. President, GSFCU asks students to label the various categories appropriately and come up with catchy names for the final product.
			Rutvi gandhi	
			Aayushi Singh	
			Shivani Gohil	
13	Environment	Development of Natural Waste Absorbent Material for Biodegradable Cellulose Sanitary Napkins.	Mayur Bharatkumar Panchal	President, GSFCU asks students about the Price and Ingredients of Biodegradable Sanitary Napkins. He congratulates students on Prototype development. He asked about what are the challenges in their product? Students were asked to find out the challenges vis-à-vis market products.
			Kevin K Nariya	
14	Healthcare Management	AI based advanced Brain Sensing and Voice controlled Wheelchair for Paraplegic/Quadriplegic people.	Kshitij Joshi	President, GSFCU asks students how to categorize the different types of Brain Signals and if they have taken in into consideration while designing Prototypes. He appreciated the idea and concept.
			Pujan Soni	
			Rudra Joshi	
			Hetvi Asniawala	
15	Drone	Drone Destroyer	Harshil Bhavsar	President, GSFCU liked the concept of "Drone Destroyer" and asks
			Harsh Suthar	

			Nishant Oza	students to connect with Industry for guidance.
16	Green tech	To make clay as well as water protection for shoes sole and tyres.	Pratik Prajapati	President, GSFCU liked the concept and asks students to test the Clay Resistance chemical developed for further trials.
			Shah	
			Gautamkumar K.	
			Priyanshu R Patil	
			Tirth A Soni	
17	Biotech	To solve the problem faced by the farmer, who can't identify the disease in the crop.	Pratik Waghela	President, GSFCU asks students to study more about different diseases and develop database for their identification and development of customized fertilizer/pesticides. President suggested connecting with GSFC ltd. for guidance.
			Kaivalya Pathak	
			Manan Lakhani	
			Kalp Vaidya	
			Tanmaysinh Khant	
			Vrunal Patel	
			Piyush Makkar	
18	Biotechnology	Herbal formulations for Burn treatment	Nishant Upadhyay	President, GSFCU ask students if similar kind of products is already available in the market and how their product is different. Students said they are working on Bio-Polymer-based Ayurvedic Spray which is unique. President was informed that no spray for burn treatment is currently available on the market. That makes their product unique.
			Tirth Patel	
			Sunayna Singh
